

TRAIL OF LOSSES LEFT BY BIG STORMS

All Capitals Of Europe Watching Germany's Course

Peoples, With Eyes on Hitler, Ask "What Now?"—Peace of Continent Depends on His Decisions, It Is Admitted; French Hope Men of Moderate Opinions Will Be Taken Into Cabinet

Mussolini Keenly Interested in Events

Associated Press
London, Aug. 3.—Europe's mighty nations gazed on a little man to-day and asked: "What now?"

Governments, figuratively a big pale, wondered where Germany was headed under the rule of Adolf Hitler, erstwhile ally, now partner and army comrade.

Curiously, it is noted in all of Europe's capitals.

First foreign-born ruler in Germany's history—he is a native of Austria—Hitler has shown so far he can make the grade. He has climbed to the front where he holds the peace of the continent in his hands. He has become what one Berlin newspaper called "executive of the Divine Will." France wonders if he will seek friendship or assume a belligerent attitude.

Page Five XI is disturbed by fears that a sudden change in German rule may add to Europe's myriad difficulties.

ITALY WATCHES
Premier Mussolini, Italian dictator, is watching the moves of Germany's "Führer" closely.

Russia wonders what is ahead in its unstable relations with the Reich. Britain is anxious. So, too, are the United States.

THE GENERAL IMPRESSION is that the coming winter will bring the supreme test for Hitler. If he can surmount the last of domestic troubles during the next eight or nine months, he probably will be sure of an indefinite reign, it is felt in most capitals.

FRANCE OPINION
Paris, Aug. 3.—The situation brought about by the recent Adolf Hitler to full power in Germany following the death of President von Hindenburg is regarded by officials here as "dangerous."

They expressed the hope Hitler would try to strengthen his position by taking some calmer elements into the cabinet, instead of pursuing his belated campaign of "ruthlessness."

Officials point to the June 30 bloody purification and the Austrian affair ending in the assassination of Chancellor Dollfus, claiming (Turn to Page 2, Col. 1)

Chicago, Aug. 3.—Cattle and hogs were driven into the Chicago stockyards to-day under police escort as commission men sought to resume trading, stopped for nine days by a strike of the stockyard men.

Four hundred more stockyard employees, the commission men's hands, joined the strike this morning, declaring a lockout yesterday.

The commission men then handled the first shipments to buyers, setting back to the cattle and hogs the water trough.

QUEBEC SEEKING NEW WATER SUPPLY

Quebec, Aug. 3.—Shortage of water in Quebec during the coming winter unless some relief from the present drought comes shortly is feared by Mayor E. E. Gendreau. The city is considering a dam across Lake St. Charles in an attempt to find a new source for the water supply.

DOCTOR SHOT IN VANCOUVER

Physician Badly Wounded; Locomotive Engineer Shoots Self in Head

Canadian Press
Vancouver, Aug. 3.—Dr. A. P. Proctor, chief medical officer of the Canadian Pacific Railway Medical Association, was shot through the stomach shortly after 1 p.m. to-day, allegedly by one of his patients in the association's office.

Immediately after firing point-blank at the doctor, the assailant, T. A. Sargood, locomotive engineer, of Newelston, turned the gun on himself and discharged a shot into his head, according to two eye-witnesses.

Both Dr. Proctor and Sargood are in the General Hospital. Hospital surgeons are working to save Dr. Proctor's life, his upper abdomen having been twice pierced by bullets. No operation has been performed yet.

Sargood's condition is also serious, although he is given a better chance to recover. The shot he fired at himself plunged through his jaw and embedded itself in the ceiling.

Berlin, Aug. 3.—Whether Germany can best honor Paul von Hindenburg by burial in the battlefield of one of his victories or in the quiet of his home at Neudeck was the great national question to-day.

Even the discussion of Chancellor Adolf Hitler's sudden ascendancy to the presidency were subordinated to the subject of the Hindenburg burial.

ARCHBISHOP IS CRITICALLY ILL

Bellevue, Aug. 3.—Most Rev. C. L. Worrell, Archbishop of the Church of England in Canada, remained near death to-day, but his fight for life resulted in a slight improvement during the last twelve hours.

KINSMEN ARRIVE IN VICTORIA IN STYLE

Greetings, Victoria, shouted visiting Kinsmen as they arrived here yesterday for the opening of the national convention. Instead of limousines, local Kinsmen used blimp wood trucks to convey the delegates to the Empress Hotel. After urging their steeds beyond slow motion pace for a chariot race to the hotel, some of the visitors enjoyed the ride so much they chartered the carts for sightseeing tours.

Batch Of Naval Papers Lost From Train In Britain

PLANE PULLING GLIDERS LANDS
Baltimore, Aug. 3.—Encountering rain in the Wilmington, Del., area, and stiff head winds, the biplane pulling a mail train of gliders from New York to Washington was forced to land here to-day for fuel. The plane this morning had been in a red dispatch box placed in the guard's coach of a train which left London at noon. The box was in the custody of an Admiralty messenger who was accompanied by a superintendent overseas.

It was related that when the messenger and overseas went to collect the box from the guard's compartment, after the train had stopped sixteen times en route, the box was missing.

NOVA SCOTIA MINERS TO WORK
Stellarton, N.S., Aug. 3.—Striking miners of the Acadia Coal Company unanimously voted to-day to return to work next Monday for at least forty-eight hours.

According to the policy of dispute negotiation, this will permit an opportunity for settlement of the case against William McPherson, whose suspension last week led to idleness of 1,500 men.

GREAT FOREST FIRES CHECKED

Large Crews of Men Work in Areas of Northwestern U.S.
Spokane, Wash., Aug. 3.—Major forest fires in the northwestern United States were reported under or near control to-day.

Aided by an improvement in weather conditions, thousands of fire fighters checked the advance of the flames, but did not relax their vigil for fear high winds might cause them to flare out of control again.

Fourteen hundred men had twenty-five miles of trenches in the Colville National Forest in northwestern Washington to bring a 60,000-acre fire near control, but only after rearing work in the face of advancing flames.

UNITE AGAINST FEDERAL PLAN

City and Three Municipalities Protest New Scheme For Handling Relief

A united protest from Victoria, Oak Bay, Saanich and Esquimalt against the Dominion Government's proposal to reduce its relief contribution to British Columbia to \$150,000 a month, and also against the manner in which it is proposed to make the grant, was planned by Reeve R. W. Mayhew at a meeting of the Oak Bay Council yesterday evening.

The move took exception to the Dominion Government making a flat grant to the province and then washing its hands of relief, and leaving it to the province and municipalities. In his opinion, the present system, under which each government contributes a third share towards the costs, was fair and met the situation satisfactorily for all concerned.

He did not think it right, however, that after making the grant the Dominion Government should more or less disassociate itself from such an important problem as the care of the unemployed.

Councillor R. R. Taylor favored going on record against the proposal. LET PREMIER KNOW

Councillor J. V. Johnson pointed out that it appeared that British Columbia's delegation had accepted the offer and supported a suggestion of Reeve Mayhew that the protest should be sent through Premier Pattullo in order that he might be given an opportunity of understanding how the cities and municipalities felt on the matter.

"If we all sit back in silence we tell Premier Pattullo we favor the move, but if we protest he will know how we feel and act accordingly," said the mover.

Councillor Johnson suggested an immediate communication with the Premier by night letter, but it was decided to leave the question with the mover for him to take up with Mayor Leeming and Reeves William O'Brien, Alder Lockley and consider a unanimous protest.

Pepper-throwing Thief Gets \$54
Vancouver, Aug. 3.—A pepper-throwing thief took Joe Rago, steward of the Helene Canadian Club, by surprise yesterday evening and looted the cash register of \$54.

Rago answered a knock on the door of the club's premises, Hastings Street, and a masked man, about twenty-two, three pepper in his face. Rago was overcome and locked in a room while the intruder helped himself to the money and escaped.

Peace Motions Before Kinsmen

National Convention Delegates Busy on Resolutions To-day

Featured by the adoption of a resolution empowering a committee appointed by the founder of Kinsmenhood, H. A. Rogers, to consider the desirability of specified measures for peace and disarmament, another business session of the national convention of Kinsmen was concluded in the Duke of Kent lounge of the Empress Hotel this morning.

The delegates, numbering some representatives of clubs as far east as Ottawa, spent this afternoon in various sport activities in preparation for the president's dinner and ball at the Empress Hotel to-night. The convention will be officially brought to a close to-morrow.

The measures which the founder's committee have been called on by the resolution to consider include the collection of all pertinent information regarding armaments, the formation of a body group in all Kinsmen clubs, the development of Kinsmen speakers, the obtaining of engagements for Kinsmen speakers as to reach the greatest number of people, the securing of newspaper and other publicity and the active co-operation with the League of Nations Society and other agencies having the same ends in mind.

ARMED INDUSTRY
In addition, it was resolved to refer to this committee two other resolutions governing the ownership and regulation of the arms industry, the declaration of war only by a majority.

Dominion Bank Manager Here

D. Dawson, Visiting From Toronto, Managed Vancouver Branch Ten Years Ago

Dudley Dawson, general manager of the Dominion Bank, Toronto, arrived in Victoria to-day from Qualicum Beach and Nanaimo. He conferred with David McMillan, local manager, and inspected the branch at the intersection of Douglas and Yates streets immediately following his arrival prior to the noon hour.

Mr. Dawson spoke optimistically of general conditions throughout the country, stating that all lines of manufacture in the east, with the exception of the building industry, were maintaining the trend of the last few months. The continuance of this progressive state of affairs through the winter, he said, would depend on world conditions.

Long associated with western Canada in the course of his banking career, Mr. Dawson, who was formerly manager of the Dominion Bank at Vancouver, observed that things were looking pretty well out here. In stating up the building owing by the (Turn to Page 2, Col. 7)

Quebec, Aug. 3.—"Canada is the worst defended Dominion of them all. She should have some defense of her own. There should certainly be more naval units." These comments were made by Sir Reginald Tyrwhitt, Admiral of the British Fleet, on landing here yesterday en route to the reunion of the Canadian Corps in Toronto.

Admiral Tyrwhitt said he "understood a naval college was once started in Canada, but it did not amount to much."

Heaviest Crop Losses in Ontario Around Chatham and Ridgeway; in Eastern Michigan Nine Persons Lose Lives; Property Losses in New Jersey and Maryland

Five Deaths In Ohio Reported

Canadian Press and Associated Press
New York, Aug. 3.—Storms which swept the Atlantic seaboard and Great Lakes to-day left nine persons dead in eastern Michigan, possibly five in Ohio and three in Ontario.

Wind, rain, hail and lightning, striking yesterday, last night and early to-day, wreaked heavy damage to homes, commerce, shipping utilities and communication.

In Ontario the storm's wrath centered in the Ridgeway and Chatham districts, where heavy toll was taken of farm crops.

Train rails were washed out near Townsend, Del., trolley and telephone poles and trees were blown down and cellars were flooded in the Niagara Falls district.

High tide on the Cohasset River flooded Bridgeton, N.J., and threatened a water famine for a time. Township families fled in night clothing from an apartment house a half hour before it toppled into the river.

A suddenly-formed twister destroyed eight homes and injured a dozen persons at Hickory Point, Md., a summer colony south of Baltimore. DAMAGE IN OHIO

Hailstone and lightning came with the wind and the rain in Ohio Lake Erie shore towns, Lorain, Sandusky, Cedar Point and Vermilion. Put-In-Bay, an island town, was cut off from communication with the mainland for hours. Its houses were unroofed, a warehouse was demolished and boats were torn from their moorings.

Power service was stopped in homes and crops were severely damaged in central Illinois by lashing winds and heavy rains and hail.

LOSSES
Toronto, Aug. 3.—Three lives and extensive property damage was the toll claimed by a storm that swept across Ontario between Lake Huron and Lake Erie yesterday evening.

A heavy downpour of rain was welcomed by farmers in areas where extreme drought had damaged crops and produced poor yields.

The victims of the storm were Mrs. O. W. Rickard, her eleven-year-old daughter, Lucille, and a six-year-old son, Jerry. They were Detroit residents and went to their deaths in Lake Erie when the storm lashed the water, the waves upsetting the small boat.

Water Shortage In South Iowa

Farmers of Wisconsin and Illinois Also Watch Sky For Signs of Rain

Associated Press
Chicago, Aug. 3.—Farmers of Iowa, Wisconsin and Illinois scanned the skies anxiously to-day for signs of rain.

Twenty-four counties in southern Iowa, ravaged by chinch bugs, seized by the sun and drained of sub-soil moisture, are in dire need of water and feed for livestock. Hay and pastures, particularly in the southwest quarter of the state, are burned up. Corn tassels crumple at the touch of a hand.

More than half the farmers in some townships are without a water supply. Federal relief officials are considering the feasibility of employing an army of well diggers. Crop observers report corn still has an excellent chance in central Iowa, while it may yield a bumper harvest in the northern parts of the state. Most Illinois farmers hold hopes for a pretty good crop—if more rain falls.

The drought retains a firm grip in about twenty counties along the Mississippi valley and in scattered sections in the southern end of the state.

ITALY TO ADD MANY PLANES

Big Appropriation of Funds
Also For Naval Construction

Associated Press
Rome, Aug. 3.—Official decrees, published yesterday evening, reveal new plans for air force and naval expansion by Italy.

An appropriation of 1,300,000,000 lire—about \$100,000,000—will be poured into the military air force during the next two or three years. The decree provides this sum shall be spent during the present and ensuing years in increasing the nation's air defence forces.

The number of ensuing years is not stated, but it is generally believed the expenditure, which the official gazette listed as "extraordinary," will be made over a relatively brief period.

Another decree authorizes appropriation of 354,000,000 lire for "naval construction." This sum is to be divided over the period intervening before the end of the fiscal year 1935.

Naval circles believe this appropriation, in addition to that of June 6, authorizing 480,000,000 lire to be spent between 1935 and 1940. The earlier decree stipulated the expenditure was complementary to the usual appropriations for new construction.

August 3, 1914
Germany's Proposed Invasion of Belgium Brings Britain Closer to War

By MORRIS GILBERT
By August 3, 1914, there is no mistaking the ominous war clouds rolling up on every European horizon.

King George and King Albert... stood solidly against Germany's ultimatum.

Ministries and war lords hastily compose their final ultimatums. Paris—Learning that German patrols were penetrating into French territory, Premier Viviani protests to the German ambassador. 2.30 p.m. The ten-kilometre retirement of French troops from the French frontier, previously instituted as a mark of good faith, is lifted.

Paris hears that German troops are penetrating Luxembourg.

Rome.—The council of ministers confirms the neutrality of Italy.

Brussels, 7 p.m.—The German ambassador to the Belgian Foreign Ministry, a German ultimatum. Germany, it declares, persuaded that the French army would pass through Belgium, determines to prevent "an enemy attack." Germany foresees no hostile attitude on Belgium's part, and will respect its territorial integrity at the end of the war. If Belgium maintains "friendly neutrality," if Belgium denies free passage for German troops, Germany will consider Belgium as an enemy.

King Albert of Belgium rejects the ultimatum. At the same time he appeals to King George for a diplomatic intervention.

London, Monday.—Sir Edward Grey learns of the rejection of the ultimatum. In Parliament that afternoon, he expounds the facts of the Anglo-French military and naval convention, hitherto undisclosed, terming it a simple "entente" and not an alliance.

Grey demands of Berlin the withdrawal of the ultimatum to Belgium. Failing a satisfactory answer, the British ambassador was to demand his passports.

Berlin.—Bethmann-Hollweg describes the treaty of guarantee of Belgian neutrality "a simple scrap of paper."

Germany's Stubborn Stand on Ultimatum to Belgium Brings Britain Into War

It is August 3, 1914, and the mud-died hates of Europe are drawing to an ominous climax which eventually is to plunge most of the world into armed conflict.

Quebec, Aug. 2.—King George has an amazing knowledge of Canadian affairs, said Hon. Herbert Marler, Canadian minister to Japan, who returned to Canada to-day on the Hotel Empress of Britain after being received in audience at Buckingham Palace.

"His Majesty was most interested in everything pertaining to Canada and was also extremely interested in Canadian affairs in the Far East. It was a most delightful interview and I was most grateful for the honor," said Mr. Marler.

A. C. Williams to Face Jury in Saskatoon on Riot Charge

Canadian Press
Regina, Aug. 3.—Prosecution of A. C. Williams on charges of rioting and unlawful assembly will be proceeded with despite representations made yesterday to Hon. T. C. Davis, Saskatchewan Attorney-General, by a delegation representing the Canadian Labor Defence League, headed by A. E. Smith. The charges against Williams were laid following riots at the Saskatoon relief camp in the spring of 1933 that resulted in the death of Police Inspector J. L. Simpson.

The visit of the Canadian Labor Defence League delegation followed a meeting of the league here Wednesday at which Smith charged the Saskatchewan government had "coached" three young witnesses to give false evidence in connection with the manslaughter trial that followed the riot.

Following the interview with the delegation, Mr. Davis stated he had told them that Williams had been committed for trial at his preliminary hearing, the case must go ahead.

OPPOSE PLAN FOR NEWSPRINT

U.S. Publishers Fight Proposal Board Be Set Up Under NRA

Associated Press
Washington, Aug. 3.—Newspaper publishers of the United States to-day had their promised chance to oppose at an NRA public hearing the new newspaper industry's proposal for creation of a board with powers over prices and supply.

The plan has been unanimously opposed as "monopolistic" by directors of the American Newspaper Publishers' Association.

The hearing was held before D. H. Tufts, deputy administrator, on the recommendation of the newspaper code authority for creation of a newspaper planning and adjustment board of members.

The board's membership as proposed would consist of three from the newspaper industry, three who are, or represent, newspaper publishers, a labor representative from the newspaper industry, a labor representative from newspaper publishers, and a distinguished administration member to serve as chairman.

The board would be empowered to decide price schedules and, in emergencies, to fix minimum newspaper prices. Hugh S. Johnson, NRA administrator, would have review of all its actions.

"The purpose of the hearing is to give the publishers a last crack at the plan before it goes to Johnson," Tufts explained before the session started. "After the hearing we will study the record and see what changes should be made before forwarding the proposal to the administrator."

HOHENZOLLERN NOW IN DETROIT

Louis Ferdinand Willing to Become Emperor if Germans Should Call Him

Canadian Press
Windsor, Ont., Aug. 3.—If the Hohenzollerns ever reign over the German people again it will be because the people of Germany demand their return, Louis Ferdinand Hohenzollern, son of Ex-Crown Prince Friedrich Wilhelm, declared yesterday in an interview in Detroit with The Border Cities Star, as he expressed regret regarding the death of President von Hindenburg.

Louis, who lives in Detroit and is registered under the name of Dr. Louis Ferdinand, declared he had heard nothing about the rumor there would be an attempt made to bring the monarchy back to Germany and place himself on the throne. He is Ford representative in Berlin.

"Naturally," said the ex-prince, "if the German people should call on me to take the throne I expect I would accede to their request, but it is entirely up to the hands of the German people themselves. I do not anticipate anything like that, I may say. Nor do I expect there will be any trouble regarding the death of President von Hindenburg."

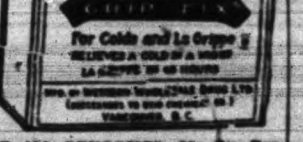

"Germany to-day is quiet and peaceable and the government in power is there because the majority of the people want it. Hitler has a very strong following.

NEW FORCE FOR CHINESE UNITY

Steady Growth of Opposition to "Warlordism" Is Expected

Canadian Press
Shanghai, China, Aug. 3.—There is a gradual awakening in the circles of Chinese warlords and politicians to the fact that China cannot be made over by edicts or by the domination of this or that clique or faction, and this realization is slowly working for an approach to unity.

This does not mean that the era of civil war is at an end, but it does mean growth of opposition to "warlordism," and this will result not only in a lack of support for fighting factions, but actual opposition, covert and open, from bankers, merchants and intellectuals.

The treaty ports are filled with thousands of returned students, masters of many foreign languages and part-masters of modern theories of government and public administration. But these people are a trifling minority of the population, as are the 4,000,000 or 5,000,000 soldiers and armed bandits who live off the rest of the 450,000,000.

SHINGLE EXPORT GROUP IS FORMED

Canadian Press
Vancouver, Aug. 3.—British Columbia shingle manufacturers have organized an association to be known as the British Columbia Shingle Export Co-operative Association.

The step has been taken to facilitate and regulate exports to the United States so as to conform with the new quota set by that country's tariff commission which limits Canadian exports of shingles to 25 per cent of the domestic consumption.

Lumbermen met here and discussed plans of the association. It is believed at least 90 per cent of the manufacturers will join the association.

Visitors in France from the United States last year totaled 101,300.

BETTER TERMS

SINCE THE OTTAWA GOVERNMENT has agreed to appoint a commission to investigate the claims of the Maritime Provinces for more equitable treatment from the Dominion, it is probable that a similar course will be pursued in regard to the case submitted by the Pattullo government for better terms for British Columbia. As far as this province is concerned, Mr. Bennett has a precedent before him in the course of Sir Robert Borden, who in 1912 met a similar request from the McBride government by appointing a commission which, however, was unable to get together before the outbreak of the Great War.

Sir Robert Borden was not at all enthusiastic over this matter, and in that respect he differed from no other Dominion government leader, for he realized that if the door for further grants to the provinces by Ottawa were opened it would be hard to close it again. But he could not very well refuse to comply with the request of Sir Richard McBride for a commission since both belonged to the same political party, and when Sir Richard was bombarding the Laurier government and Sir Robert was leader of the opposition he had given, by implication, his blessing to the representations of British Columbia.

Nor was Sir Richard as insistent when Sir Robert got into office at Ottawa as he had been when Sir Wilfrid Laurier, a political opponent, was in power. From Sir Wilfrid he sought better terms. From Sir Robert he asked for a commission, and Sir Robert gave it to him, but it was a commission which managed to keep from operating for two years after its appointment until the outbreak of war in 1914 kept it from operating at all.

The present British Columbia case for more favorable financial treatment from Ottawa is based upon the conditions on which this province entered Confederation, which, the provincial government claims, have not been adhered to. It is contended that the amount of the subsidies received from the Dominion under the Terms of Union in compensation for the surrender of customs, excise and other sources of revenue, has been much less than the province was entitled to expect, that it has been, in fact, less than that which has been received by every other province in Canada with the exception of little Prince Edward Island. These subsidies total since Confederation, as submitted by Attorney-General Sloan, are: Prince Edward Island, \$17,651,945; Nova Scotia, \$39,448,651; New Brunswick, \$38,752,669; Quebec, \$94,316,309; Ontario, \$113,703,666; Manitoba, \$55,023,096; Saskatchewan, \$47,458,515; Alberta, \$42,194,616; and British Columbia, \$26,579,105. At the same time, Mr. Sloan pointed out, British Columbia was the third largest contributor to the federal treasury.

Any variations of the terms under which British Columbia entered Confederation necessarily must involve an amendment to the British North America Act, and this may require the approval of all of the provinces, since all of them are partners in the Canadian national firm. British Columbia has a good case, which has been ably presented, and which it is hoped will commend itself to the sense of fairness of the other provinces if a commission should recommend important changes in the national structure to meet it.

ITALY WITHDRAWS

THE ITALIAN FORCES WHICH WERE mobilized near the Austro-Italian frontier a short time ago have been withdrawn, and with their withdrawal has disappeared one of the immediate sources of danger to the peace of Central Europe. This does not imply that Italy was deliberately seeking to upset international relations, since it is obvious enough that her desire was to assist Austria in maintaining her independence if it were threatened and to protect her interests in the southern Austrian provinces. But if it had been deemed necessary in Rome for Italy to intervene, there is little doubt that Jugoslavia would have pursued a similar policy for similar reasons, and there would have been danger of a clash between the two countries, which are not on the best of terms.

In Europe these interventions by one country in another are always dangerous. They are responsible for more wars than any other cause of conflict. The interference of the other European nations in France during the great revolution eventually produced the militarism of Napoleon Bonaparte, which at first was purely defensive and then became offensive. A similar situation in regard to Russia was averted, not because there was no interference but because that country was too big and inaccessible for the operations of Wrangel, Kolchak and Denikine, armed and financed by the other great powers, to succeed. If that intervention had been persisted in, there might have arisen in Russia another Napoleon who, with more than 150,000,000 people behind him, in time would have become a curse to civilization.

There is not a single nation on earth which has not enough domestic problems of its own crying for solution to engage all the ability, energy and genius of its government, and the financial resources of its people. If in every one of them the administration concentrated its attention upon first things first, pursued the happiness and contentment of its own domestic populace, the international situation would look after itself.

Notwithstanding the tension in Europe the prospects of another great war are regarded in many authoritative quarters as remote. In the first place, the civil population of every country now realizes that another conflict would be brought to their very doors by the airplane, and it is the civil population which either by constitutional or unconstitutional means in the final analysis determines national policy. The dictatorships of Central Europe are more likely to provoke revolution than war.

RECIPROCITY

A REPORT FROM WASHINGTON THAT the United States Government had excluded Canada from the list of countries with which reciprocal trade agreements would be sought because the matter was a party political issue in this Dominion, has disturbed the Ottawa government, and Mr. Bennett has issued a statement declaring that the report did not give a true picture of the attitude of the Washington administration. In support of his contention the Canadian Prime Minister quoted from a pronouncement of the United States Secretary of State some time ago that a reciprocal agreement between the two countries was desirable in view of the fact that the normal trade between them was greater than that of any two other nations, and could be made even larger by mutual concessions.

It is hardly likely that the Washington government would forego any opportunity of expanding its commerce, especially with Canada, but it also is certain that it will undertake no negotiations for an agreement unless it is satisfied that the matter will not be made a political issue in this country, as it was in 1911. At that time, it will be recalled, the Laurier government negotiated a reciprocity pact with the United States, which at first was approved by the Conservatives in Parliament and then repudiated when the prospect of capitalizing it to their advantage in an election became apparent. Among those who opposed the agreement then was the present Prime Minister, who now desires another one of a similar nature.

In normal times of our trade with the world, amounting to more than two billions, the commerce between Canada and the United States accounted for over fifty per cent, while our trade with the United Kingdom was under thirty per cent. Now of our total trade of a billion the proportion of our commerce with the neighboring republic is about forty-four per cent, while the percentage of our trade with Great Britain is about thirty-five. Obviously, therefore, Canada's major external commercial prospects are with those two countries and when all of them recover from their high tariff maladies the totals will be much more impressive than they are now. Renewed negotiations between Canada and the United States for trade reciprocity are inevitable, a fact which is recognized by even those in this country who bitterly and successfully fought the proposal twenty-three years ago.

WONDERS

NOBODY KNOWS WHAT ELECTRICITY really is, but of the wonders it works there is no end. Newspaper readers are frequently confronted with one of its phenomena on the front page, but we doubt if nine out of ten of them realize it as they follow the news of the day. From time to time the Victoria Daily Times prints pictures of happenings in Europe from one to three days after they have occurred. Early this week it reproduced a picture of the funeral of Chancellor Dollfus which took place in Vienna on Saturday. A picture of Lindbergh being welcomed in Paris by the United States ambassador appeared in this newspaper two days after the young aviator had made his epoch-making flight.

These pictures are transmitted by telegraph, either by radio, cable or telephone. They are received in a few minutes in San Francisco, where there is a telephoto apparatus for developing them. They are then mailed by airplane to Seattle which covers the distance in a little more than six hours. They reach Victoria by steamer, and it is rather noteworthy that it takes them longer to get to Victoria from Seattle than it does to reach Seattle from London, Paris or Vienna by way of San Francisco. The apparatus involved in the transmission, receipt and development of pictures, not to speak of other matter, is very costly; otherwise daily pictorial reproductions of interesting happenings in all quarters of the world would appear in the local press.

The most powerful station for the radio transmission of anything is at Rugby, England, which a few years ago wirelessly to New York a complete front page of The Times of London in a few minutes. From Rugby is hurled through space the result of the historic horse races in England. The result of the Derby, for example, reaches Canada, Australia, South Africa and India in three seconds after it is received at the station. Even Hongkong receives it in thirty seconds.

WHAT OTHER PAPERS SAY

NEIL HEPBURN:
The Ottawa Journal

One of the cable stories tells of certain Germans being shot "because they were Conservatives." Let's hope Mr. Hepburn isn't susceptible to suggestion.

INTERFERENCE:
The New York Post

University of California scientists discover that certain high frequency radio currents stop areas of the brain from working. Why don't they come right out and say they're against crooners, instead of casting insinuations around?

OUR WHEAT PROSPECTS:
The Toronto Globe

Wheat is a topic of the hour. A cable to The New York Times carries an estimate of 28 to 30 per cent lower production in Europe than last year. Chicago grain statisticians are anticipating for the United States the smallest crop since 1896, with an estimate for the three western Canadian provinces of 340,000,000 bushels, compared with last year's harvest of 281,000,000 bushels. The Dominion Bureau of Statistics reports that "the Danubian countries have suffered from drought, and production will be smaller this year, especially in Roumania. Drought reports have also been received from Germany, Poland, Yugoslavia and Czechoslovakia and Austria. Wheat production in France this year will be considerably lower than 1933." If Canada adheres to the international agreement, export will be limited this year to 200,000,000 bushels, notwithstanding the slim of the crop. Nevertheless, the sun seems to be rising in the west. Is it because the west has more faith in wheat than in governments?

A THOUGHT

Lead. There will certainly be a lot of them who have brought all our work in us—think, and it's. Ah! when shall all men's goods be of light across the land?—Tennyson.

Loose Ends

We change our minds about Old Paul—one remembers the events of 1910 with wonderment—we don't appreciate what is going on about us—and we need more than better terms.

By H.B.W.

OLD HERO

THE WORLD sings these days with a chorus of praise for stout old Hindenburg. Everywhere it is said that, amid all the madness of these times, he stood firm, a patriot and an honest man. The madder the men about him, the cruder that Hitler became with the passing days, the more all uniforms that the stout megalomaniac Goring designed to ornament his corpulence, the more German citizens who were murdered in cold blood, the more heroic and wholesome did old Paul appear.

Twenty years ago this month old Paul was getting his arms ready on the eastern front, where he had waded through the bog, making his plans years in advance. There the Russian hordes, our allies, floundered in confusion. Seventeen years ago old Paul was the evil genius of the Central Powers that were threatening to engulf democracy. The Hindenburg line stood between civilization and salvation. We cursed him then. We made fun of him. The newspapers had a glorious time lampooning him with crude caricatures, Hindenburg was the Enemy of mankind.

And now, at the end, he is a world hero. Which shows you that you never know what you will be thinking next week or even to-morrow morning. But it is highly probable that your opinion of current statesmen whenever it is to-day, will be revealed in twenty years or so. This should be a rare consolation to current statesmen, who need it badly.

OLD MEMORIES

SPEAKING OF STATESMEN, how jolly and yet how nostalgic it was the other night to read in the editorial columns next door what Premier Bennett said about unemployment in the election of 1930. Four years ago! Oh, it must be centuries, and happily the public's memory cannot endure so long. Four years ago, the records show, Premier Bennett promised to end unemployment right away, to give work to every man who wanted it. Now, on the fourth anniversary of these splendid promises, Premier Bennett is busy squeezing the last drop out of unemployment, giving no jobs, only doles, pitifully small.

That, of course, is only politics, the usual thing. But how does a man feel when he makes such promises, not to one man, but to ten millions, and then breaks them, one and all. Easy to shout defiance at a House of Commons. Easy to keep his provincial promises. Easy to cut off the dole and call the unemployed "dole-baits." But how does a man feel when he is alone, when he has retired to his bed at night and has to answer, not to politicians and public, but to himself? I have often wondered how statesmen stand up to the moral.

If a man had broken his pledge to a friend, at least he would confess his inability to make good the debt. But when you are a statesman and break your promise to everybody, you admit nothing. You boast that things might have been worse. You bluff it out. This is supposed to be good politics. Yet I have always thought that some politician might gain immortality if he would come before the public and confess that he had failed and then resign. He might even get re-elected. At least he could sleep sound at night.

GREAT THOUGHT

TO THE PHILOSOPHIC mind, the march of droughts across the world is rich food for thought. Here is a race of animals called men who imagine that they control this unimportant tenth-rate planet. All nature is their slave. Within a few years, by harnessing natural powers in new ways, they expect to eliminate hard work. (Turn to Page 4, Col. 6)

Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES

August 3, 1909

(From The Times File)
 J. A. Virtue, proprietor of the Oak Bay Hotel, is about to double the capacity of his hotel at Oak Bay. This autumn, as soon as ever the rush is over, he intends to commence work on a new wing which will just double the size of the building he now has.

The wing which is to be built will be placed on the east end of the hotel, between it and the road.

The new fire alarm system was completed on Sunday evening, and is now in full working order. All the five circuits have now been connected up and tested, and they all proved satisfactory.

The machinery for the new steam power plant, which the B.C. Electric Company is installing as an addition to the present steam plant on Store Street, has arrived from Vancouver. The foundation has been laid for the new structure at a cost of about \$20,000.

The first Vancouver Island amateur athletic championships under the auspices of the British Columbia Amateur Athletic Union, Victoria branch, will be held Saturday at the Oak Bay Park, and runners and athletes from all over the island will be competing.

While the policy pursued by the Dominion Government of adding materially to the aid of navigation wine from shipping men only praise, there is one section of the inhabitants of the West Coast of Vancouver Island who do not regard these innovations in the same light. These are the Indians of Quatsino, who have been little doubt as to who will win out, the Dominion Government or the Indian Neptune.

The Indian story is that an Old Home who dwelt on the Quatsino Island is but entering his protest. He is trying to drive the lighthouse people off, hence the weather conditions as they prevail. There has been little doubt as to who will win out, the Dominion Government or the Indian Neptune.

SAATCHI SCHOLARSHIPS

To the Editor:—As a newspaper in Spanish I should like to know why we have no scholarship this year to encourage our High School students. Last year the school trustees presented the students ranking first in Spanish with a cheque for \$100. This year I understand that is to be omitted. Why? Some people say because the boy's mother is a well-known C.C.P. supporter. Why bring politics into it. Are we to understand that if this boy had ranked first in Spanish, but a student in Oak Bay, Victoria, or Esquimalt, High School had got one more mark, this promising boy would have got nothing? Next year I shall have a boy of my own in the running, and there will probably be a scholarship for will probably be a scholarship for (Turn to Page 12, Col. 2)

KINSWOMEN AT SOCIAL AFFAIRS

Local Hostesses Arrange
 Delightful Parties For Visiting Kinsmen's Wives
 Luncheon To-day at Yacht Club; Bridge Party Held at Oak Bay

While their members are dealing with national problems and other weighty matters, the wives of the members attending the annual national convention of Kinswomen are enjoying a number of social functions arranged for their entertainment by the local hostesses. To-day they were entertained at a delightful luncheon at the Royal Victoria Yacht Club, covers being laid for fifty at tables charmingly decorated in the Kinswomen colors of mauve and yellow.

Mrs. T. Reed-Palmer was the guest, giving an interesting account of some of the early history of southern Vancouver Island.

HELD BRIDGE-DINNER
 Yesterday evening while the men were enjoying a stag party at the Crystal Garden, the ladies held a most successful dinner and bridge party at the Beach Hotel. Mrs. Arthur Poyntz, wife of the national president, and Mrs. B. E. Mitchell, wife of the Victoria president, received the guests, and during dinner spoke briefly to welcome to the visitors. Miss Dorcas Wilson sang several songs very charmingly, accompanied by Miss Sheila Conway.

Covers were laid for forty-eight at a table artistically arranged with mauve and yellow flowers, reflecting the Kinswomen colors, and yellow tapers in silver holders.

Later bridge was played in the main lounge, which was also manned with summer flowers. Ten tables were in play, and the winners were: First, Mrs. Davidson, Chilliwack; second, Mrs. Dorothy Ganser, Vancouver; Mrs. McAllister, Mrs. Herbert Babbington acted as convener of the bridge.

EMPRESS STAGES NAVAL CABARET

Affair To-morrow Night Expected to Attract Big Crowd

The round of social affairs held in celebration of Navy Week will be happily concluded to-morrow night with the presentation of a special naval cabaret at the weekly supper dance in the Empress Hotel ballroom. An exceptionally attractive programme of cabaret numbers has been arranged and the verse of the navy will be introduced in the modern dance numbers played by Billy Tickle and his Empress Orchestra.

The "Sailor's Hornpipe" will be danced by Thelma Stratford and Kathleen Mann, who will make their bow in the female conception of the uniform of marines.

Another snappy number will be the "Gaiety Chorus," introduced by five dancing chorines interpreting a specialty tap dance, with Thelma Ackerman putting the punch into the number as soloist.

In anticipation of the cabaret a large number of reservations have been made for the Saturday night supper dance this week and it is expected that the navy social crowd will be well represented.

LOST BABY WELCOMED HOME

Recovered from the effects of having been lost for several days in the woods near his Westchester County, N.Y. home, little Bobby Connor Jr. here is shown in the arms of his smiling mother after his return from a hospital. His disappearance gave the nation a five-day abduction scare and caused a widespread search for possible kidnappers.

Former Victorian Tells Of Hindenburg's Invasion

Countess Turczynowicz Recalls Seizure of Her Home By Late President

Polish Estate Was Commandeered For Headquarters; Ruthless Treatment

"But the second invasion came," she continued, "and we were made prisoners in our own house. Hindenburg wanted secrecy and for some reason he thought our house suitable for his purpose. In any case he commanded us to turn it into a general headquarters for himself and his staff."

"The second invasion she speaks with horror."

"They tore the holy icons from the walls of the chapel," she said, "they pulled the statue of the Madonna, and did many other things. I can never forget those things they did. Much has been made of the awful acts of the Russians, but I can assure you that they were never worse than those acts of the Germans who invaded Poland during the early months of the Great War."

CHOSE MARRIAGE

"Laura Blackwell, in physical appearance very much like the beloved Madame Schumann-Heink, became a noted Wagnerian singer as a young girl. She chose between marriage, with the rearing of three children, and an operatic career, selected domesticity in preference to footlight fame and her name, perhaps, in electric lights at La Scala and the Metropolitan."

GERMANS INVADE POLAND

"The first German invasion of Poland," the countess describes it graphically.

"Twice the Germans came to our home estates. My children, the servants and myself were alone the first time. My husband who, was an agricultural scientist, was absent on a trip at the time."

"My husband's man came to me, his face pale as death. He said that we had broken out and that we must flee. We gathered together a few personal belongings and left the place as soon as we could."

"Then the tide of invasion receded and the countess and her family returned."

METAL NEWEST STYLE FABRIC

ALUMINUM Capes and Chromium Cowls to Be Worn This Fall

Chicago, Aug. 3.—Armored, like a medieval knight or a well-protected bank truck, the lady of fashion will sell forth to the social fray this autumn.

If you see an apparition on the boulevard, daintily arrayed in an aluminum cape or a chromium cowl, repulse with stream-bling, do not give her a wide berth. She is not one of those newfangled autos; she is just a modern miss dressed in the height of chic.

Style critics, gathered here for a preview of fall fashions, revealed metal as one of the newest fabrics for autumn wear. If use, they admitted, is limited as yet.

While aluminum capes may break, they never wear out; for cleaning, just a quick wipe with the polish. And they are glittering as new, and besides, they are light and so flexible they can be rolled up into milady's purse.

As for accessories, at least one item is certain to attract attention or stirring policemen.

"That figure coming down the street with the glittering belt. Do not shoot—it's just a fashionable girl clad in a new cartridge belt made of brass, aluminum or gold."

PARK COSTS ARE TO BE REDUCED

Ontario Premier Says Niagara Commission to Be Reorganized

Canadian Press
Toronto, Aug. 3.—Extravagance and inefficiency in the administration of the Niagara Parks Commission, warranting a complete reorganization of the operation of one of Canada's premier scenic and tourist attractions, was revealed in the report of the commissioners who investigated the operation of the commission. The report was submitted to Premier Mitchell Hepburn yesterday.

Mr. Hepburn yesterday evening said a saving of \$25,000 could and would be effected in the cost of administering the parks which overlook the Niagara Gorge and Niagara Falls, without impairing efficiency, and which cost \$75,000 in the last five years. This was in addition to a sum of \$25,000 expended for guards. One constable on the police force told the commissioners that in his thirteen years of service he had not made a single arrest. The record, produced for the commissioners in evidence, showed that in five years within the bounds of the park there had been thirty-six prosecutions for offences and twenty-eight convictions.

Joe Prill, fifty-six years old, has looked for twenty years on trains, but this is the biggest job of his life. He began to stock up on food for the trip this morning. Hams and sides of beef and fresh vegetables and butter were stored into the diner's ice boxes while three other cooks began the work of cleaning and overhauling equipment.

Asked if he was planning special dishes for the President, Joe Prill shook his head. "Anything that he orders he'll get," he said, "but we aren't planning anything yet. We try to find out in Portland if he has favorite dishes."

NO DIRT ALLOWED
Out in the diner C. G. Koenigs, the steward, selected from all the stewards on the system, supervised the job of cleaning silver and dishes, of drying the linen for dust and checking white coats and buttons of waiters.

And, when Joe and Koenigs go back to their St. Paul homes they will not be talking about the time from Chicago to Washington. They will be remembering whether the President

Joe Prill is going for the ride of his life. Picked for the job over every cook on the system, given his choice of helpers from all the road's dining car crews, Joe Prill is going to ride east on the presidential special, cooking for Franklin D. Roosevelt.

Your Baby and Mine

By MYRTLE MEYER ELDRED

MIDDLE CHILD PLAYS HANDICAPPED ROLE

The middle-between child has a difficult place in family life. She is the youngest and, therefore, the recipient of much fond, lenient treatment, as well as the compliments that naturally accrue to the "baby." She is the eldest and, therefore, not the recipient of special privileges which the elder, because of age and ability, just as naturally acquires. This fact is ignored by parents who are certain they treat all their children with impartiality and will not recognize that age itself—an unassailable factor—makes it impossible to give each child the same treatment accorded the other.

THIVE TO EXCEL

The inequalities of opportunity, which are part of the destiny of the middle child, are due to the way in which the child is treated. The child may make that extra effort and endeavor to surpass the elder, especially if their age are within two years or so. Due to the fact that the middle child is more diligent in performing her tasks in the home, she is more industrious at school, and she better meets. This is the way in which the middle child's position is improved. They fall back into baby ways. They demand more attention of the parent by habits which they have outgrown permanently. This is most apt to happen when

PLAN YOUR WEEK-END MEALS IN ADVANCE TO SAVE WORK

By MARY E. DAGE
Week-end meals are much delightful. Informal occasions that both hostess and guest should feel refreshed and stimulated afterwards. A general plan of activities will do much to make these visits pleasant. Begin arrangements early for week-end parties and write down plans in black and white. Begin to shop early in the week. Look over the silver and linen and be sure that everything is ready to use.

SATURDAY LUNCHEON

Most week-end visits begin sometime on Saturday and end Sunday morning or Monday morning. If the guest arrives in time for Saturday luncheon, well and good. But if he arrives some time in the middle of the afternoon, be sure to serve a round 4 o'clock. His luncheon may have been unusually early and a little bit of food would be welcome.

On Friday make enough salad dressing to carry through Saturday and Sunday.

On Saturday morning wash enough lettuce for the entire week and store it in the ice box in an airtight container. With lettuce and dressing at hand, ready to use, salad making is greatly simplified.

The Saturday meals are prepared largely on Friday and early Saturday. The actual work at meal time is negligible.

Sunday meals must be planned in accordance with the manner in which the day is to be spent. If a long Sunday morning nap is to be taken, a late substantial breakfast with dinner at six o'clock in the evening is the best plan.

These menus have been planned to avoid the minute preparations as much as possible. The vital loaf in the Saturday dinner is made on Friday. The potatoes are made Friday morning and ready to serve early Saturday morning and reheated for serving. The soups are cooked in the morning and reheated in the sauce at serving time. Married Flirts

CHAPTER I

"To sickness and in health... for better, for worse, till death do us part..."

The solemn words fell into the ears of the bride and groom as they stood before the altar. The bride, a young woman of twenty-two, looked up at her groom, a young man of twenty-four, with a smile that was both nervous and happy. They had known each other since childhood, and their love had grown from a simple friendship into a deep, abiding affection. The ceremony was taking place in a small, intimate church, with only a few guests present. The atmosphere was quiet and reverent.

As the priest pronounced them man and wife, the bride and groom exchanged a glance. They were now officially married. The bride's heart was filled with a sense of peace and contentment. She knew that she had found the man of her dreams. The groom, on the other hand, felt a mix of emotions. He was happy, but he also felt a sense of responsibility. He knew that he had to live up to the expectations of his new wife and their families.

The ceremony ended with a kiss and the exchange of rings. The bride and groom then turned to face their guests, who were all smiling and clapping. The bride's mother, a woman of middle age, looked on with a proud expression. She had raised a daughter who was now a wife. The groom's father, a man of similar age, also looked on with pride. He had raised a son who was now a husband.

The bride and groom then walked down the aisle, hand in hand. They were both looking at each other with a sense of joy and accomplishment. They had made it. They were now a family.

BRIDGE

the word sounded) could slip away quietly together.

The porch of the gabled brown house had been made more comfortable by the addition of some red roses. But nothing Gypsy thought with a quick sign and from for the instruction of this thought on the perfection of the afternoon, nothing could hide the shabbiness of the old basket chairs, nor the fact that paint was peeling from pillar and ceiling. Father had wanted to have the house painted for the wedding — darling! But of course, he hadn't been able to manage it. It was just one of those daydreams in which the happy-go-lucky Morris occasionally indulged himself. Some day we'll have the house painted the name of that particular dream.

As if it mattered, cried Gypsy to herself, rushing up the steps... if anything mattered on this day of days her wedding day!

Clytie, the colored woman who had cooked and scrubbed and nursed the Morris for some years, appeared in the doorway. Gypsy's adorable and turbulent babyhood, appeared in the doorway. Gypsy had a new pair of green uniform, but her apron, as usual, not even Gypsy's wedding day could make Gypsy completely clean. She rolled her eyes at them both in welcome as she swung the screen door wide.

"Bea wishes, Miss Gypsy," she cried sonorously. "Congratulations, Miss Weaver!"

In these minutes the old house was buzzing with noise and excitement. Gypsy, her veil tossed back, stood to cut the huge cake, of Clytie's baking, at a dining-room table heavy with embroidery and yellowed lace. Mrs. Morrell, a slender, melancholy lady in her early fifties, with the resigned expression of the chronic invalid, watched her only daughter anxiously. Gypsy was "so flighty," all the relatives said. Maybe marriage would "settle her," although in 1923 marriage wasn't any too likely to achieve such results. And she was young to marry—twenty-two. Mrs. Morrell herself had been twenty-eight at the time of her own marriage, and thirty at the time of Gypsy's birth. Later—eight years later—had come the twist, the barren and desolate. Mrs. Morrell said well since. But Gypsy—well, marriage could be different for her. Girls nowadays took it in their stride. Gypsy—fancy that!—was going to keep her job. She taught in a settlement house over in New York City, and her mother wondered gloomily just how long that state of affairs would last. Gypsy was such a child about everything, such an optimist, that though it would be a task to manage a home, husband and job as well, and boys. It was a thrilling thought.

"A lot she knows," murmured Mrs. Morrell darkly to herself.

The clock, dark and rich, fell away under her daughter's knife. "Mummy! The first for Mummy!" Mrs. Morrell came alive, smiling and sighing. Why, she was just a baby. She thought life was all roses and sunshine.

The shadows lengthened outside. Upstairs, in the big corner bedroom, Gypsy was folding her wedding dress into its tissue and slipping into the beige tweeds which were her traveling costume.

"My dear, it's simply stunning!" This was Sue Canavan, her bridesmaid. Sue, still in the delphinium blue chiffon which brought out the color of her own long-lashed eyes, and after a long hunt found her gloves for Mr. her hat, her printed linen handkerchief. Beatrice, the fourteen-year-old twin, all arms and legs, and a wayward hair worn in a James Gwynn bob, sat cross-legged on the bed.

"See, you're not a scrap of help," Sue flung at her in exasperation. "You're like a Chinese doll, sitting there and staring."

Beatrice rolled over on the bed and regarded the ceiling with bored eyes. "When you've been around this place as long as I have," she said, between yawns, "you'll find nothing is ever as it seems. Gypsy's kernel has always been a mess..." She grinned ingratiatingly at her sister.

POSSIBILITY OF REFUNDING

Lower Interest Rate on Gov-
ernment Loan Is Good
News to B.C.

The announcement that Ottawa was able to secure a short-term loan in New York at 2 per cent has prompted financial observers in provincial circles to debate the possibility of British Columbia going ahead shortly with the refunding powers given the government by the B. C. Legislature.

For several months little has been said about this part of the government's plan, chiefly, as Hon. John Hart pointed out in his budget speech, because nothing could be done until conditions in the money market were ripe.

However, it has now been suggested by Premier Mitchell Hepburn of Ontario that the Dominion government might secure cheap money for the province, so they could carry out some of this kind of work.

Mr. Hart's plan is to refund the five provincial debt, with the exception of bonds issued in England under the Colonial Inland Stock Act, down to a rate of 3 or 3½ per cent.

It involves floating a new loan at a lower rate and dealing direct with bondholders by offering them a new bond in exchange or paying them out in full.

The saving the refunding, as outlined by Mr. Hart, would give the province a saving in the following figures:

Present debt charges, interest \$7,254,821, sinking funds \$2,758,778, total \$10,013,599.
This is on the gross provincial debt of \$100,000,000, which bears an annual average interest charge of 7½ per cent.

The proposal was to convert \$124,000 of this to lower interest bonds to pass the sinking funds for the first five years of the issue. On a per cent basis this would reduce the entire interest and sinking fund charge per annum down to \$4,967,778 for the first five years, and \$6,411,111 for the rest of the term of the bonds.

The saving would be \$4,967,778 for the first five years.

On a 3½ per cent basis the saving would be \$4,017,500 for each of the first five years.

With a deficit of more than \$2,000,000 on current income alone, and a budget for in the 1934-35 year, an additional relief burden on the Dominion government is suggested, and the municipalities and the province to take over the debt bill, the boon which such a loan successfully carried out, said he to the battered British Columbia treasury is quite apparent.

Mr. Hart is unable to carry out his scheme, observers here have the feeling he will have some unpleasantness for the taxpayers in his next report, in the way of heavier taxes.

The committee of experts set up by the minister to study and revise the financial set-up of the province and property in its stride yet, but it is understood they will examine, among other possible sources of revenue, the income, succession, duty, fuel oil and amusement taxes.

"I broke out in a rash all over my body. It was very itchy and I used to rub and scratch until it came up in water blisters. I could not get any sleep and my clothes made it worse."

"I tried nearly everything, but nothing did any good and I had the trouble three months. Then I tried Cuticura Soap and Ointment and I was healed after using three cakes of Cuticura Soap and two boxes of Cuticura Ointment." (Signed) Miss Mary Delt, Box 2, Redwood, Minn.

COMPANY SHOWS BRIGHT REPORT

Substantial Gains in Sales Made By North American Life; Dividends Maintained

A report released by North American Life covering the activities for the first six months of 1934 shows substantial gains in sales which have increased over 35 per cent over the same period of 1933. That is marked by large increases in volume of new business in every month since January.

Particularly significant is the fact that the number of the company's representatives who qualified for the Big Production Club which terminated on June 30, was greater than in any year since July, 1929.

For over twenty years, throughout the Great War, the influenza epidemic and the recent depression, the North American Life has maintained its dividend scale without fail. The company's record in this respect is practically unique. Every dividend payment during that time has been equal to or greater than any previous dividend.

These records, together with the past achievements extending over fifty-three years and coupled with the fact that the company is mutual, paying only to the policyholders the profits arising from the operation of the business, establishes the North American Life as one of the strongest and soundest financial institutions.

SAANICH SCHOLARSHIPS

Saanich then, as some of the school trustees' children will be eligible.

But those of us who like fair play do not like the business of scholarship one year and not the next. I shall be grateful, Mr. Editor, if you will publish this letter and get this matter cleared up.

MEMORIAL AVENUE

To the Editor:—In your issue of July 30 there appeared an announcement of a meeting to be held some time in September, sponsored by the district council of the Canadian Legion, to consider the best plans for the completion and permanent up-keep of Memorial Avenue. I think this a move in the right direction and should be earnestly supported by all citizens of this fair city and adjacent municipalities for the carrying out of this most worthy object. We should see to it that the idea of an evergreen memorial to the memory of those gallant men who fought and died for their king and country be completed and kept up for all time.

This avenue can be made one of the many beautiful drives around Victoria, and I feel that was the idea in the minds of those who first proposed it. The writer was present at the great gathering that was held at the Mount Douglas end of the avenue in the fall of 1921 to see the late Hon. Walter Nichol, then Lieutenant-Governor, plant the first tree. The avenue has never been com-

pleted, there being still about a mile uncompleted near the city end in Saanich.

IN DEFENCE

To the Editor:—In answer to the letter in The Colonist by Mrs. Lewis against war, I wish to say I also am an old soldier's daughter. I had five brothers out of six and many other relatives in the war. I may also say that had it been possible for me to have gone to do my bit, I should have been there, and would have been there. God earth would have stopped me.

Things have changed since then and we have learned many things. One thing I would suggest is that we should not have a war. I suggest that before our sons go to war, if we can stop them with the good old army force, a defense band and demand that the "enemies of peace," armament manufacturers and shareholders in the armament factories, become the first to stop the war.

"Enemies of Peace," by Lieut.-Col. George E. Drew, shows us how many targets we shall have. Col. Drew states that the defense band and demand that the "enemies of peace," armament manufacturers and shareholders in the armament factories, become the first to stop the war.

The "Giant" failure to hit .300 Brandt cost Mel Ott his Big Six place and dropped Bill Terry to fifth place, in recent play. Terry dropped three points to 35, while Wagner, hitting two out of four, went up to 38. Eban Allen, who made three hits in five attempts, took sixth place with 37.

THE SCREEN

Will Rogers at Dominion

Popular Actor Has Leading Role Opposite Peggy Wood in "Handy Andy"

Will Rogers stands out as the one man Hollywood has not been able to teach.

He has simplified the picture acting business to the point where he makes it appear ridiculously easy.

He doesn't study dialogue, he wears the blue suit or the brown suit.

Occasionally, the script calls for some other garb—but that is up to the studio.

One morning during the making of "Handy Andy," his new Fox Film production being shown at the Dominion Theatre to-day, Director David Butler stopped him.

"That's the wrong suit, Bill," Butler said. "You wear the blue one this morning and the brown one this afternoon."

"Okay," replied Rogers, and peeled off the brown suit, revealing the blue one beneath.

He doesn't use a dressing room. If clothes are to be changed he does it in his car or behind a set.

He can get all the reading matter he wants to read—newspapers—on any street corner.

EMPIRE THEATRE

Among the featured acts in the Casanova Revue, the current attraction on the Empire Theatre stage, are:

Di Gaetano Dancers, a sextette of beautiful girls in a whirlwind of novel dances that combine grace and rhythm to an extraordinary degree.

Paul Rich is the leader of the all-star troupe, fresh from triumphs through their transcontinental tour. Earl Brown, who was the featured tenor in "Student Prince," presents many beautiful song numbers.

COLUMBIA THEATRE

Spencer Tracy and Jack Oakie have come highly exciting adventures into danger, love and comedy in "Looking for Trouble," the 20th Century picture which is at the Columbia.

Kinsmen Race In Baby Canoes

Tiny Craft Which Kiddies Paddle at the Beaches Used for Thrilling Early-Morning Contest

After using wood trucks for chariot races yesterday, Kinsmen today turned their attention to "baby" sports.

They, gay-colored little canoes, not much larger than a bridge table, were used in a series of thrilling races. The canoes were used for a race from the Parliament Buildings to the Esplanade. The races were won by a team of Kinsmen.

The event was staged at the early hour this morning of 7.30 o'clock. In spite of the early hour there was quite a number of Kinsmen convention delegates to see the race.

SALVATIONISTS PLAN BABY DAY

Will Tag to Raise Funds For Rescue Work

The Salvation Army is now making arrangements for the annual tag day, better known as "Baby Day" the date of which is Saturday, August 11.

This concerted drive for funds is made on behalf of the provincial rescue work, the amount realized being used for the purpose of the co-operation of every citizen is sought so that the doors of the rescue homes may be opened to every child in need of adoption.

While the aims of the Salvation Army are well known, many are in ignorance of the tremendous amount of work that is being done. The army is a body of self-sacrifice and labor as part of the work. All thought of clean living, of health, of the health of the home and of the health of the family, and by the way, the army is a body of self-sacrifice and labor as part of the work.

In recent years the Army tag day has met with a splendid reception. The army is a body of self-sacrifice and labor as part of the work. All thought of clean living, of health, of the health of the home and of the health of the family, and by the way, the army is a body of self-sacrifice and labor as part of the work.

Funeral services for Christopher Lucas were held yesterday afternoon at Christ Church Cathedral, with Very Rev. C. S. Quinlan officiating. Interment was made in the Royal Oak Burial Park, and the following graves were visited: George J. Warner, Dr. Richard Patton, J. W. Buckley, P. W. Taylor and H. W. Brumfit.

CONGRESS TO DECIDE

Congress has the say about providing the money. Although the program is not yet completed, it is expected more than \$500 million will be purchased that fiscal year. That, with other purchases already planned for the year, would give the army 1,500 serviceable planes.

At present the United States has four skeletonized anti-aircraft organizations, the United States Army, the United States Navy, the United States Coast Guard and the United States Marine Corps. The United States Army is the largest and the United States Navy is the most powerful.

Girls Strike AT CANNERY

Thirty-five Employed at St. Mungo Plant, Fraser River, Walk Out

Canadian Press
New Westminster, Aug. 3.—Thirty-five girls employed filling cans at the St. Mungo Cannery on the south bank of the Fraser River at Sunbury, B.C., struck today, demanding higher wages.

They had been receiving 3 cents a tray for reds and 2½ cents for pinks and ask for 3 1-3 cents for both. Their weekly earnings are governed by the run of fish, which is not yet very good at present.

The girls have posted pickets at approaches to the cannery, but there has been no disturbance.

The plant is owned by Nelson Brothers, a limited company, employs 150 people. Seventy-five girls and seventy-five white and Oriental men, 118 still being at work.

Norman Nelson, manager, to-day stated the rate paid was the same as received for the work in other canneries and expressed the view the girls had not good grounds for striking.

COUNCIL SEEKS POLICE POWERS

Kamloops Resolution Calls For New Control of Magistrates

A move to give municipal councils control over the appointments of police magistrates rather than have this undertaken wholly by the Attorney-General's department will be brought before the Union of British Columbia Municipalities convention in Kamloops on October 2, by the Kamloops City Council.

The present amendment to the Municipal Act in resolution form, was submitted to the Oak Bay Council yesterday for endorsement, but was referred to committee for further consideration.

The change proposed by Kamloops is that the police magistrate should receive his appointment from the municipal council rather than from the Attorney-General's department. At present, but this appointment should be recommended by the municipal council, which should have power to choose the magistrate.

Control of the salary is also sought. The present system calls for a set scale which the cities and municipalities pay. The change would give the council power of varying the salary in keeping with the times as is done with other municipal services.

Weston United In Football Victory

Manitoba Champions Defeat Prince Albert City Reds 2 to 1 in Opening Game For Western Canada Championship: Eddie Hodgert Scoring Star

Winnipeg, Aug. 2.—Weston United, football champions of all they survey between the Great Lakes and the fringe of western prairie, today served warning of their championship intentions. They turned back the challenge of Prince Albert City Reds, far western titlists, yesterday evening, 2 to 1 in the first of a two-out-of-three games series for the western Canada championship and the right to enter the Canadian finals.

Weston gained their margin of victory through the brilliant individual efforts of Eddie Hodgert, twenty-one-year-old inside right. The first goal came within seven minutes of play in the second half and the second thirty minutes later and shortly after Frodfoot, City centre-half, had tied up the score.

The first half was a featureless affair with the Red Shirts forcing the issue and United struggling to bring into play teamwork that appeared to be badly disorganized. Time and again the City men broke away, their short passing game working with machine-like precision. Each time, however, Johnston, City's full-back, proved the Weston citadel, crushed their plans.

Clay Court Net Meet Washed Out

IMPROVED FORM

On the resumption Weston showed improved form. Their long swinging passes crossed the field and commanded the attention of Scotty Milne in the City net. Six minutes after the whistle had blown Weston forced a corner. Lane, outside right, placed the ball right in the goal mouth, where Hodgert was waiting to head it in for United's first counter.

Claiming confidence with their small margin of victory United forced the attack. Allan Hodgert, brother of Eddie, came near scoring on a perfect centre when Johnston ran out to clear and broke up an attack that looked dangerous. At this point Prince Albert got going again and equalized from a corner kick. Jimmy Frodfoot, hard-working centre-forward, took Harry's pass-out to tie the score.

With eight minutes remaining, Weston again broke away on the left wing. Hodgert accepted a pass from brother Allan, played the ball alone through an entire City defence and then calmly flipped it into the net corner for the winning goal. Prince Albert attacked vigorously in the closing minutes, but there was no further scoring.

Duncan Tennis Tourney Billed

Annual Vancouver Island Championships Will Be Held August 15 and 18

Duncan, Aug. 2.—A large and representative entry is expected for the Duncan lawn tennis tournament, which carries the championship of Vancouver Island. The tourney will be held from August 15 to 18. John Murie, holder of the men's singles title, is not expected to defend, but a number of other stars will be present.

N. R. Staples, secretary of the club, was in Vancouver last week, when Oats Ryall, Jack Brown, Roy Sidaway, Doug Williams and Don Semlin expressed their intention of entering. Bud Hocking, first ranking player in British Columbia, will head the Victoria contingent, along with Marsh Gordon, Eric McCallum and others. Bill Seward, Bob Underwood, Lou Anglin, hope to be present, and Mel Drang, Seattle, and Wayne Sablin, Portland, are also likely entrants.

Mr. Golda Meyer Gross will defend the women's title, and will have some stiff competition in Eleanor Young, Canadian junior champion; Vera Orloff, Jean Milne, P. White and Muriel Munro, Seattle, and Mildred Phillips, Mrs. R. B. Wilson, Jean Campbell from Victoria.

MICK WALKER MAKES WEIGHT

Down to Middleweight Limit For Bout August 14 With Young Corbett

San Francisco, Aug. 2.—Mickey Walker, once undisputed middleweight champion, now coming to put in a priority claim to the title, has just claimed three years ago, showed yesterday he still can "make the weight."

The former Rumbon Building tested his weight on two scales. On one he weighed 160 pounds even and on the other 161 1/2 pounds, a pound and a half over the limit.

Walker is training for a ten-round bout here, August 14, with Young Corbett, of Fresno. He has agreed to gamble whatever claim he thinks he has to the title in the fight. The New York Boxing Commission and the National Boxing Association long ago accepted Vince Dundee as middleweight champion.

Low Scoring Seen In Canadian Golf

Field Faced With Terrific Task of Trying to Catch Leo Diegel, Who Carded 65 on First Round in Open Championship; Tommy Armour and Denny Shute Are Greatest Threats

Toronto, Aug. 2.—Leo Diegel threw out a challenge yesterday and it is very unlikely anyone would pick it up before the four time winner of the Canadian open golf championship had made it five. Diegel yesterday mastered Lakeview's tough fairways and rolling greens. He shot a 65, five strokes better than anyone had ever made on this course in competition.

Leo, who won the title in 1924, 1925, 1928 and 1929, was figured today to have a better chance than anyone has ever had to take five major titles. He is the only man who has won the Canadian open four times. The Canadian open is ranked third among world competitions, the British and United States preceding it.

A THREAT
But there was a distinct threat lurking behind the crowd's Diegel. Tommy Armour, the grey-thatched veteran from Washington, shot a 69 yesterday. He was only four strokes behind Diegel, and four strokes in a competition of this kind does not mean a great deal. About 160 aspirants to the title finished the first eighteen holes yesterday.

To-day, the same number were to shoot another eighteen holes, the low sixty and ties going into the final thirty-six holes, to-morrow. Diegel formed phenomenally yesterday. Going out he beat par by one, shooting a 34, and barged home through a rainstorm for a 31, four under par, on the last nine.

Diegel was on his best. He showed the first evidence of it when he made the first hole in four. He shot birdie on the tenth, eleventh, thirteenth, and sixteenth, and was one on the eighteenth, as he had been on the last hole of the first half. It was a peculiarity of Diegel's phenomenal that he did not shoot one eagle. His seven birdies indicated the consistency of Diegel's golf.

Armour's 69 put him within four strokes of Diegel. But he seemed to work much harder.

SHUTE IS THIRD
Behind Diegel and Armour, both former winners of the Canadian title, was Denny Shute, with a 75-76-71. There was half a dozen at 72, enough in the first round of an ordinary tournament to assure a player of that score a chance, but Diegel's 65 put even the good 72 score that he did not shoot one, and all they could figure on to-day was a collapse from the nervous little professional, who has shown enough in other years to take the title.

TITLE SWIMS DRAWING WELL

Large Vancouver Contingent Will Go to Kelowna For Wrigley Mile Races

Vancouver, Aug. 2.—With their eyes on further laurels, a squad of Vancouver swimmers and rowers start their final brushing up next week for the Kelowna regatta and swim gala at the interior city, August 8 to 9.

Eleven swimmers and four crews and their shells will represent Vancouver at the annual meet.

Fred Rosner, Crystal Swimming Club star and holder of three Canadian records, will go to Kelowna direct from Winnipeg, where he is competing in a swim gala at present. Roy Davidson, thirteen-year-old diving sensation and clubmate of the youthful Linda Adams, who accompanied the Canadian team to the British Empire games at London, England, will head a squad of four female stars from the Vancouver Swimming Club.

VANCOUVER SQUADS

She will be accompanied by Dot Ford, who will take part in the medley; Kay Cooper, sprinter and mile entry; and Betty Barnhart, who finished second in the 100 yards in the Wrigley mile at Victoria last year. The men's squad includes Norm Watson, who won the open mile at Kelowna last year; Harry Beadie quarter-mile and sprinter; Ernie Green and Vic Curran, junior 300-yard sprinter; Jack Jackson, sprinter, and Jack Welch, sprinter and mile. The Vancouver Rowing Club expects to send crews for the singles, doubles, fours and eights, to compete with crack crews from Kelowna and the James Bay Athletic Association, Victoria.

Polo Match Is On To-morrow

To-morrow afternoon on the grounds at Foul Bay a polo match will be played between the Victoria Contingent and the team from H.M.S. Norfolk. The navy men are reported to have a good squad, and should give the locals a stiff game. The following is the list of players:

Extensive Selling
On Grain Markets

Canadian Press
Winnipeg, Aug. 3.—The bull fever of the last few days was absent in today's session of the Winnipeg Grain Exchange, wheat futures prices ending a listless day 1 cent higher to unchanged.

Some recovery from earlier declines was made in late trading, the October option closing at 86 1/2 cents, December 90 1/2 and May 93 1/2 to 94 cents.

A wave of profit-taking swept the pit at the start to ease the early advance and each attempt thereafter to drive prices upward was met by further selling. Some selling also was credited to the government agency, which has kept a close check on the bull movement.

Liverpool continued to lead the way to higher world price levels. Prices in the English market closed 1/4 to 1/2 pence higher. Foreign demand for Canadian wheat was temporarily non-existent.

Cash grains were slow. Coarse grains futures followed the lead of wheat.

Chicago, Aug. 3.—Extensive profit-taking sales which have been in progress for several days hindered advances today, and the wheat market sagged at the last.

Wheat closed easy, 1/4 to 1/2 under yesterday's finish. September wheat \$1.02 1/2 to \$1.03 1/2; corn 1/2 to 1/4 up, September 71 1/2 to 72 1/2; oats 1/2 down and provisions showing 2 cents to 10 cents gain.
